

# WHY RBI STRUCTURES?

- Company** **RBI Structures** is a division of Rough Brothers Inc. The company has designed, engineered, manufactured and installed “see-through” structures for nearly 75 years. Each year, the company completes nearly 400 projects across the country, many of which meet a complex scope and set of engineering specifications.
- Capabilities** **RBI Structures** has design, engineering and 110,000 square feet of quality manufacturing space in Cincinnati, Ohio. The engineering team is licensed in 50 States.
- Flexibility** **RBI Structures** designs and manufactures industry specific Pre-Engineered structures. Several Models of carwash enclosures are offered by the company, all of which can be expanded and modified to create unique and efficient configurations for carwash operators.
- Full Service** **RBI Structures** offers a complete range of accessories including self serve bays, equipment rooms, lighting, heating and de-icing systems.
- Design** **RBI Structures** has an all-aluminum design for carwash enclosures. Connections and glazing systems have been carefully designed to eliminate visible fasteners, while minimizing maintenance.
- Glazing** **RBI Structures** use 1/4” tempered glass, laminated aluminum panels and twin walled polycarbonate as standard glazing materials but offer a wide range of products including insulated systems as optional.
- Distinction** **RBI Structures** offers as a standard feature a prominent fascia / overhang called a “Bumper” that runs the length (and sometimes the width) of the carwash enclosure. The Bumper is used to introduce a second color, graphics, neon, LED or down lighting to create unique curb appeal.
- Focus** **RBI Structures** offers carwash enclosures to carwash owners and distributors and does not independently promote carwash equipment.
- Website** **RBI Structures** offers additional information including specifications on their website: [www.rbistructures.com](http://www.rbistructures.com)
- Contact Us** **RBI Structures** can be contacted below to address any questions you may have.
